3. The Trustee and the Custodian

3.1 The Trustee

The Trustee for the Fund, HSBC (Malaysia) Trustee Berhad, whose registered office is at 13th Floor, Bangunan HSBC, South Tower, No. 2, Leboh Ampang, 50100 Kuala Lumpur Malaysia, is incorporated in Malaysia since 1937 and registered as a trust company under the Trust Companies Act 1949 of Malaysia.

Since 1993, the Trustee has acquired experience in the administration of trusts and has been appointed as trustee for unit trust funds, exchange traded funds, wholesale funds and funds under private retirement scheme.

The Trustee's main functions are to act as trustee and custodian of the assets of the Fund and to safeguard the interests of Unit Holders of the Fund. In performing these functions, the Trustee has to exercise all due care, diligence and vigilance and is required to act in accordance with the provisions of the Deed, the CMSA and the SC Guidelines. Apart from being the legal owner of the Fund's assets, the Trustee is also responsible for ensuring that the Manager performs its duties and obligations in accordance with the provisions of the Deed, CMSA and the SC Guidelines. In respect of monies paid by an investor for the application of units, the Trustee's responsibility arises when the monies are received in the relevant account of the Trustee for the Fund and in respect of redemption, the Trustee's responsibility is discharged once it has paid the redemption amount to the Manager.

Anti-Money Laundering and Anti-Terrorism Financing Provisions

The Trustee has in place Anti-Money Laundering and Anti-Terrorism Financing policies and procedures across the HSBC Group, which may exceed Malaysian regulations. Subject to any Malaysian regulations, the Trustee shall not be liable for any loss resulting from compliance of such policies, except in the case of negligence, willful default or fraud of the Trustee.

Statement of Disclaimer

The Trustee is not liable for doing or failing to do any act for the purpose of complying with law, regulation or court orders.

Consent to Disclosure

The Trustee shall be entitled to process, transfer, release and disclose from time to time any information relating to the Fund, Manager and Unit Holders for purposes of performing its duties and obligations in accordance to the Deed, the CMSA, the relevant SC Guidelines issued in Malaysia and any other legal and/or regulatory obligations such as conducting financial crime risk management, to the Trustee's parent company, subsidiaries, associate companies, affiliates, delegates, service providers, agents and any governing or regulatory authority, whether within or outside Malaysia (who may also subsequently process, transfer, release and disclose such information for any of the above mentioned purposes) on the basis that the recipients shall continue to maintain the confidentiality of information disclosed, as required by law, regulation or directive, or in relation to any legal action, or to any court, regulatory agency, government body or authority.

HSBC (Malaysia) Trustee Berhad is approved by the Securities Commission Malaysia as a registered trustee for collective investment schemes and private retirement schemes in Malaysia.

Should the Trustee become insolvent, the Manager will appoint some other trustee duly approved under the SC's requirements to act as the new trustee of the Fund. The Manager shall notify the Unit Holders of the new trustee's appointment within fourteen (14) days of such appointment.

3.2 The Custodian

The Trustee has appointed The Hongkong and Shanghai Banking Corporation Ltd as Custodian of both the local and foreign assets of the Fund in Malaysia. For quoted and unquoted local investments (in Malaysia) of the Fund, the assets are held through their nominee company, HSBC Nominees (Tempatan) Sdn Bhd. The Hongkong and Shanghai Banking Corporation Ltd is a wholly owned subsidiary of HSBC Holdings Plc, the holding company of the HSBC Group. The Custodian's comprehensive custody and clearing services cover traditional settlement processing and safekeeping as well as corporate related services including cash and security reporting, income collection and corporate events processing. All investments and assets of the Fund are registered in the name of the Trustee or to the order of the Trustee. The Custodian acts only in accordance with instructions from the Trustee.

The Custodian is a global custodian with direct market access in certain jurisdictions, and is supported by a network of sub-custodians which provide local settlement and clearing in each domestic market. The Custodian will only appoint a sub-custodian who is licensed or authorized to provide custodian services in their respective jurisdictions in accordance with HSBC Group's policies which require use of sub-custodian services within the approved network of sub-custodians.

The sub-custodians are selected based on their comprehensive custody and clearing services which cover traditional settlement processing and safekeeping as well as corporate related services including cash and security reporting, income collection and corporate events processing. The assessment for the appointment of the sub-custodians must, amongst others, take into account credit risk, operational risk, legal risk, country risk, infrastructure risk and contract risk of the proposed sub-custodians. This benchmark requires the sub-custodians to comply with all HSBC Group's standard sub-custody processes and local regulatory requirements.

The Trustee shall also be responsible for the acts and omissions of its delegate as though they were its own acts and omissions.

However, the Trustee is not liable for the acts, omissions or failure of third party depository such as central securities depositories, or clearing and/or settlement systems and/or authorised depository institutions, where the law or regulation of the relevant jurisdiction requires the Trustee to deal or hold any asset of the Fund through such third parties.

The Hongkong and Shanghai Banking Corporation Limited is a bank organised under the laws of the Hong Kong Special Administrative Region and is licensed with the Hong Kong Monetary Authority.

Should the Custodian become insolvent, the Trustee will appoint some other corporation to act as the new custodian of the Fund's assets. The Trustee shall make the necessary disclosures as required by relevant laws.

4. **Singapore Representative**

The Manager has appointed CIMB-Principal Asset Management (S) Pte. Ltd., whose registered office is at 50 Raffles Place, #22-03A & B Singapore Land Tower, Singapore 048623, to act as the representative for the Fund in Singapore (the "**Singapore Representative**"). The Singapore Representative will provide and maintain certain administrative and other facilities relating to the offer of Units of the Fund recognised under Section 287 of the Securities and Futures Act, which includes, *inter alia*, maintaining for inspection in Singapore a subsidiary register* of Unit Holders who subscribed for or purchased their Units in Singapore (or any other facility that

enables the inspection or extraction of the equivalent information), which shall be open to inspection by the public during usual business hours of the Singapore Representative at its business address.

Copies of the Fund's constitutive documents (the Deed and this Singapore Prospectus) are available for inspection by investors, free of charge, from the Singapore Representative, during usual business hours.

** The registrar of the Fund is CIMB-Principal Asset Management Berhad. As the Fund is a Qualifying CIS, the Singapore Representative also maintains a subsidiary register of Unit Holders who subscribed for or purchased their Units in Singapore.*

5. The Auditor

The auditor of the Fund is PricewaterhouseCoopers whose registered office is at Level 10, 1 Sentral, Jalan Rakyat, Kuala Lumpur Sentral, PO Box 10192, 50706 Kuala Lumpur, Malaysia.

6. Fund Structure and Classes

The Fund is an open-ended standalone unit trust fund established in Malaysia and authorised by the SC.

The Fund is established with a multi-class structure with Units which may be established in different Classes. The base currency of the Fund is USD. Investors should note that the Fund is allowed to establish new Class(es) from time to time without prior consent from the Unit Holders. Under the Deed, Unit Holders of each Class have materially the same rights and obligations. Each Class may be different in terms of currency denomination, fees and charges, and hence, will have its respective NAV per Unit, denominated in its respective currency taking into account the aforementioned features. Although the Fund has multiple Classes, Unit Holders should note that the assets of the Fund are pooled for investment purposes.

Presently, the Manager intends to offer Class SGD Units of the Fund in Singapore. The Manager may offer different Classes in any other jurisdiction in which the Fund may be offered under the ASEAN CIS Framework.

Each Unit held in a Class represents an equal undivided beneficial interest in the assets of that Class. However, the Unit does not give a Unit Holder an interest in any particular part of the Class or a right to participate in the management or operation of the Fund (other than through Unit Holders' meetings).

7. Investment Objective, Focus and Approach

7.1 Investment objective

The investment objective of the Fund is to aim to achieve capital appreciation over the medium to long term by investing in the ASEAN region.

7.2 Investment focus and approach

The Fund will be managed with the aim of achieving a stable and positive investment return over the medium to long term through investments in ASEAN region regardless of market conditions. The companies invested in must be domiciled in, listed in, and/or have significant operations in the ASEAN region. 'Significant operations' means major businesses of the company. For example, the Fund can invest in a company with significant operations in Thailand but listed on the New York Stock Exchange. The threshold for 'significant operations' would be at least 30% of total group revenue being derived from countries in the ASEAN region.

The calculation would be based on the most recent financial reports released by the companies (e.g. interim and annual reports).

Investment universe of the Fund will be in countries where the regulatory authority is an ordinary or associate member of IOSCO which includes but is not limited to Brunei Darussalam, Indonesia, Malaysia, Philippine, Singapore, Thailand and Vietnam. If the investment is a listed security, the investment must be traded in an exchange that is a member of WFE. In the event the Manager is unable to obtain the necessary licenses or permits, or the licenses or permits are revoked or not renewed (as the case may be), the Manager will seek to invest in other accessible markets.

Under general market conditions, the Fund will invest in equities of companies which the Manager believes will exhibit good growth potential[^] when compared to its industry or the overall market[#]. The Fund may also invest up to 15% of the Fund's NAV in debt securities to be in line with the Fund's objective. The minimum credit rating for these debt securities must be at least "BBB" by Fitch or its equivalent by S&P and Moody's. The Fund may opt to access into the equities and/or debt securities market via investment in units of other CIS that is in line with the Fund's objective, subject to the requirements of the SC Guidelines and the Standards of Qualifying CIS.

The asset allocation strategy for this Fund is as follows:

- between 70% to 98% (both inclusive) of the Fund's NAV will be invested in equities;
- up to 15% of the Fund's NAV may be invested in debt securities; and
- at least 2% of its NAV will be invested in liquid assets for liquidity purpose.

The Manager will adopt an active investment strategy by using a bottom-up equity selection process in searching for companies that exhibit good growth potential[^] than its industry or the overall market. To complement this strategy, the Manager combines it with a top-down country and sector allocation process and will actively trade the securities in the portfolio of the Fund. Analysis and study will be made on the macroeconomic trends in ASEAN economies where the investments are made; in particular, looking at the direction of gross domestic product growth, interest rates, inflation, currencies and government policies to form the view and outlook for each country. This serves as part of the risk management framework that enables the Manager to assess the impact of macroeconomic changes on corporate earnings and dividends and at the same time to determine if there are any predictable trends. For the debt securities portion, the Manager formulates an interest rate outlook through examining factors such as the inflation rate, monetary policies and economic growth. With an interest rate outlook and yield curve analysis, the Manager identifies the weighting of the investment tenure and credit for the Fund. Generally, the Manager will manage risks associated with debt securities portfolio according to three (3) parameters: tenure, credit ratings and sector. The duration of the debt securities portfolio is also monitored and modified according to our interest rate outlook (i.e. the sensitivity of the portfolio to interest rate changes).

However, the Manager may take temporary defensive positions that may detract from the Fund's prescribed asset allocation when the Manager believes that the equity markets that the Fund invests in are experiencing excessive volatility, expected prolonged declines, or when there are other adverse conditions, such as political instability. Under these circumstances, the Manager may invest all or a substantial portion of the Fund's assets in money market instruments to achieve the Fund's investment objective in bearish or non-performing equity markets. The Manager may from time to time reduce its proportion of high risk assets, such as equities and increase its asset allocation to liquid assets such as money market instruments and/or Deposits to safeguard the Fund.

In response to these adverse conditions, the Manager may also utilize derivative instruments such as futures contracts for purpose of hedging. The use of derivatives is subject to the prevailing SC regulations and Standards of Qualifying CIS.

Further, risk management, with an emphasis on portfolio diversification, will form an integral part of the investment process. The Fund is constructed and managed within pre-determined

guidelines including risk returns trade-off, which will be monitored and reviewed regularly by the investment management team. The risk management strategies and techniques employed include diversification of the Fund's asset allocation in terms of its exposure to various sectors, industries and companies.

^good growth potential

- Refers to companies that have a better growth than the gross domestic product of the respective country and reasonably priced based on the Manager's estimate. Reasonably priced means when the intrinsic value is higher than the current market price.

#compared to its industry or the overall market - The comparison will be conducted at the point of purchase.

All fees and charges payable by the investor and the Fund are subject to any applicable taxes (including but not limited to GST) and/or duties as may be imposed under any applicable laws or by any other regulatory authorities from time to time.

The Manager has the discretion to amend the amount, rate and/or terms and conditions for the above-mentioned fees and charges from time to time (except the Trustee Fee, which must be consented by the Trustee) subject to the requirements stipulated in the Deed of the Fund. Where necessary, the amendments will be notified to the Trustee. Amendments to the fees and charges, if any, will be communicated to the Unit Holders.

EXPENSES

The Deed also provides for payment of other expenses. The major expenses recoverable directly from the Fund include:

- expenses incurred in the sale, purchase, insurance, custody and any other dealings of investments including commissions/fees paid to brokers and costs involved with external specialists approved by the Trustee in investigating and evaluating any proposed investment;

The Manager and the Trustee are required to ensure that any fees or charges payable are reasonable and in accordance with the Deed which stipulates the maximum rate in percentage terms that can be charged. All expenses of the Fund will generally be apportioned to each Class currently available for sale based on the MCR except for Management Fee and those that are related to the specific Class only, such as, the cost of unit holders meeting held in relation to the respective Class. If in doubt, investors should consult their professional advisers for better understanding.

Investors should note that the Manager may alter the fees and charges (other than the Trustee Fee) within such limits, and subject to such provisions, as set out in the Deed and the SC Guidelines.

Investors should note that the Manager may, for any reason at any time, where applicable, waive or reduce the amount of any fees (except the Trustee Fee) or other charges payable by the investor in respect of the Fund, either generally (for all investors) or specifically (for any particular investor or a group of investors) and for any period or periods of time at its absolute discretion.

Expenses not authorised by the Deed must be paid by the Manager or the Trustee out of their own funds if incurred for their own benefit.

In accordance with the Standards of Qualifying CIS, the Manager shall not make payments out of the assets of the Fund which is a Qualifying CIS for the purpose of marketing the Qualifying CIS.

9. Risks

9.1 General risks

Investors should consider and satisfy themselves as to the risks of investing in the Fund. It should be noted that investments in the Fund may not be appropriate for all investors and should be viewed by a prospective investor as a medium to long term investment. Investors should not expect to obtain short term gains from such investment.

Prospective investors should be aware that the value of Units and the returns derived from them can fluctuate and can go down as well as up. There can be no assurance that the Fund will achieve its investment objective or that investors will get back their original investment. Past performance should not be construed as an indication of the future results of an investment in the Fund.

Some of the general risks which apply to investing in unit trusts are:-

- **Returns not guaranteed**

The investment of the Fund is subject to market fluctuations and its inherent risk. There is **NO GUARANTEE** on the investment returns including any income distribution or capital appreciation, nor any assurance that the Fund's investment object will be achieved.

- **General market environment risk**

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political, development in regulatory framework, law and legal issues and/or other factors, which will result in a decline in the Fund's NAV.

All these may result in uncertainties and fluctuations in the price of the securities of the Fund's investment portfolio. Such movements in the values of the securities will cause the net asset value or prices of units to fall or rise, and income produced by a Fund may also fluctuate.

- **Inflation risk**

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. As inflation increases, the real value of a fund's portfolio could decline. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

- **Manager's risk**

The performance of the Fund is dependent amongst others on the knowledge and investment techniques or processes adopted by the Manager and any lack of the above would have an adverse impact on the Fund's performance thereby working to the detriment of Unit Holders. Investors should also note that the quality of the Fund's management is also affected by internal circumstances within the management company such as operational and system matters. The Manager seeks to reduce this manager's risk by implementing a structured investment process, systematic operational procedures and processes along with stringent internal controls.

9.2 Specific risks

9.2.1 Stock Specific Risk

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.

9.2.2 Country Risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of units to fall.

9.2.3 Liquidity Risk

Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.

9.2.4 Currency Risk

There are two (2) levels of currency risk associated with the investment of the Fund:

Currency risk at the Fund's portfolio level

As the investments of the Fund may be denominated in currencies other than base currency of the Fund, i.e. USD, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. You should be aware that if the currencies in which the investments are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund and vice versa. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

Currency risk at the Class level

Investors should also be aware that currency risk is applicable to Class(es) (e.g. Class SGD) which is in a different currency than the base currency of the Fund (in USD). The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the respective Class(es) may result in a depreciation of the value of your holdings as expressed in the currency denomination of the Class(es).

Investors should realise that currency risk is considered as one of the major risks due to the volatile nature of the foreign exchange market.

When deemed necessary, the Manager may utilise derivative instruments, subject to prevailing SC Guidelines, to hedge currency risk. Currently, the Manager does not seek to mitigate the currency risk and investors of the Fund should be prepared to assume the currency risk.

9.2.5 Credit and Default Risk

Investments of the Fund may involve a certain degree of credit and default risk. Generally, credit and default risk is the risk of loss due to the counterparty's and/or

issuer's non-payment or untimely payment of the investment amount as well as the returns on investment. The Manager aims to mitigate this risk by performing fundamental credit research and analysis to determine the creditworthiness of its counterparties and/or issuers of securities invested into.

9.2.6 Interest Rate Risk

Interest rate risk refers to the impact of interest rate changes on the valuation of debt securities. When interest rates rise, debt securities prices generally decline and this may lower the market value of the Fund's investment in debt securities. In managing the debt portfolio, the Manager takes into account the coupon rate and time to maturity of the debt securities with an aim to mitigate the interest rate risk.

9.2.7 Risk of Investing in Emerging Markets

In comparison with investments in the developed markets, investment in emerging markets may involve a higher degree of risk due to the greater possibility of political or economic instability and societal tensions. Emerging markets are markets that are, by definition, "in a state of transition" and are therefore exposed to rapid political change and economic declines. Political or economic instability can influence investor confidence, which in turn can have a negative effect on exchange rates and security prices in emerging markets. The exchange rates and the prices of securities in the emerging markets are often extremely volatile. Changes to these security prices can be caused by interest rates, changes to the balance of demand and supply, external forces affecting the market (especially in connection with important trading partners), trade-related, tax-related or monetary policies, governmental policies as well as international political and economic events.

The securities in the emerging markets may face a higher risk of price drop while the exchange rates in these emerging markets are generally more volatile than those of developed markets. As such, investors should be aware that investments in emerging markets may be subject to higher price volatility and therefore will tend to have a higher investment risk that will affect the Fund's growth. The Manager attempts to mitigate these risks through active asset allocation management and diversification, in addition to the Manager's continuous bottom-up and top-down research and analysis.

9.2.8 Financial Derivatives Instruments ("FDIs")

(i) Use and types of FDIs

Subject to the Standards of Qualifying CIS and SC Guidelines, the Fund may invest in derivatives for purposes of hedging and it may be subject to risks associated with such investments. Investments in derivatives may require the deposit of initial margin and additional deposit of margin on short notice if the market moves against the investment positions. If no provision is made for the required margin within the prescribed time, the Fund's investments may be liquidated at a loss. Therefore, it is essential that such investments in derivatives be monitored closely. The Manager has the necessary controls for investment in derivatives and has in place systems to monitor any derivative positions for the Fund. The Manager will ensure that the risk management and compliance procedures and controls adopted are adequate and have been or will be implemented and that it has the necessary expertise to control and manage the risks relating to the use of financial derivatives.

The FDIs which may be used by the Fund include, but are not limited to, options on securities, stock index options, forward currency contracts, currency futures, currency swap agreements, currency options, interest rate futures or options or interest rate swaps, financial or index futures, OTC options, swaps, futures or options on any kind of financial instrument.

(ii) Exposure to FDIs

The global exposure of the Fund to FDIs or embedded FDIs will not exceed 20% of the NAV of the Fund at any time. The global exposure relating to derivative instruments is calculated in accordance with methods described in the Standards of Qualifying CIS.

(iii) Risk Management and Compliance Procedures

The Manager believes that risk management and performance analysis are integral parts of the investment process. As such, the Manager has a dedicated risk and performance management team which independently monitors the portfolio's risk. The risks are quantified and examined in detail through various tools employed by the Manager's risk and performance team and closely monitored as certain changes in the market environment may affect their value and importance. Portfolio risks are monitored to ensure that the relationship between risk and return is in line with the Fund's investment objective and strategy.

Additionally, all open positions/exposure in derivatives will be marked to market at the frequency at least equal to the frequency of the NAV calculation of the Fund. The Manager also have a comprehensive and structured internal compliance monitoring program with a dedicated team of compliance personnel covering, amongst other things, the monitoring of the portfolios for compliance with investment guidelines. The investment guidelines are reviewed regularly by the compliance team and the Manager's compliance monitoring program includes automated pre-trade compliance system as well as manual checking system to monitor compliance where certain investment guidelines cannot be electronically monitored.

The Manager will ensure that the risk management and compliance procedures are adequate and have been or will be implemented and that it has the necessary expertise to manage the risk relating to the use of financial derivatives.

When deemed necessary, the Manager may also utilize derivative instruments, subject to the SC Guidelines and Standards of Qualifying CIS, for purpose of hedging.

(iv) Risks Associated with the Use of FDIs

While the prudent use of FDIs can be beneficial, FDIs also involve risks different from, and in certain cases greater than, the risks presented by more traditional investments. The following is a general discussion of important risk factors and issues concerning the use of FDIs:

(A) Market Risk

This is a general risk that applies to all investments meaning that the value of a particular derivative may change in a way which may be detrimental to the Fund's interests.

(B) Liquidity Risk

Derivative products are highly specialised instruments that require investment techniques and risk analysis different from those associated with equity and fixed income securities. The use of derivative techniques requires an understanding not only of the underlying assets of the derivative but also of the derivative itself, without the benefit of observing the performance of the derivative

under all possible market conditions. In particular, the use and complexity of derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the Fund and the ability to forecast the relative price, interest rate or currency rate movements correctly.

(C) Counterparty Risk

The Fund may enter into FDIs in the OTC markets, which will expose the Fund to the credit of its counterparty and its ability to satisfy the terms of such contracts. In the event of a bankruptcy or insolvency of a counterparty, the Fund could experience delays in liquidating the position and significant losses, including declines in the value of its investment during the period in which the Fund seeks to enforce its rights, inability to realise any gains on its investment during such period and fees and expenses incurred in enforcing its rights. There is also a possibility that the above agreements and derivative techniques are terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated.

(D) Other Risks

Other risks in using FDIs include the risk of differing valuations of FDIs arising out of different permitted valuation methods and the inability of FDIs to correlate perfectly with underlying securities, rates and indices. Many FDIs, in particular OTC derivatives, are complex and often valued subjectively and the valuation can only be provided by a limited number of market professionals which often are acting as counterparties to the transaction to be valued. Inaccurate valuations can result in increased cash payment requirements to counterparties or a loss of value to the Fund.

Derivatives do not always perfectly or even highly correlate or track the value of the securities, rates or indices they are designed to track. Consequently, the Fund's use of derivative techniques may not always be an effective means of, and sometimes could be counterproductive to, following the Fund's investment objective.

The above should not be considered to be an exhaustive list of the risks which potential investors should consider before investing in the Fund. Potential investors should be aware that an investment in the Fund may be exposed to other risks of an exceptional nature from time to time.

10. Subscription of Units

10.1 Subscription procedure

Applications for Units of the Fund may be made through any agent or distributor appointed by the Manager. Investors may subscribe for Units in cash. Investors should check with their distributor on the availability of subscriptions using Supplementary Retirement Scheme (“SRS”) monies.

Investors wishing to use their SRS monies to purchase Units shall indicate so on the application form. Further, the application form contains the investor's instructions to the SRS operator bank to withdraw from the investor's SRS account the purchase monies in respect of the Units applied for.

Currently, the Manager accepts payments of subscription monies in SGD. Units will only be issued when subscription monies have been received by the Trustee on a cleared funds basis.

For compliance with anti-money laundering laws and guidelines, the Manager, the Trustee or the Manager's approved distributors reserve the right to request such information and/or documents as is necessary to verify the identity of an applicant and the source of funds.

Any resultant bank charges would be borne by the relevant investor.

10.2 Minimum Initial Investment Amount and Minimum Additional Investment Amount

Minimum Initial Investment Amount	SGD1,000* for the Class SGD
Minimum Additional Investment Amount	SGD100* for the Class SGD

* or such other amount as the Manager may decide from time to time

The Manager may at their discretion waive the Minimum Initial Investment Amount and Minimum Additional Investment Amount.

10.3 Dealing deadline and pricing basis

As Units are issued on a forward pricing basis, the issue price of Units shall not be ascertainable at the time of application. In buying Units, applicants pay a fixed amount of money e.g. SGD1,000 which will buy the applicant the number of Units obtained from dividing that sum by the issue price (net of the Application Fee) when it has been ascertained later.

The dealing cut-off time is the Dealing Deadline on a Dealing Day. Units in respect of applications received and accepted by the appointed distribution agents on or before the Dealing Deadline will be dealt at the relevant NAV determined on that day. Applications received after the Dealing Deadline or on a day which is not a Dealing Day shall be treated as having been received on the next Dealing Day.

The distributors may impose their own more restrictive dealing deadlines on investors earlier than the Dealing Deadline. Investors should confirm the applicable dealing deadline with the relevant distributor.

The issue price per Unit of the Class SGD on each Dealing Day shall be an amount equal to the NAV per Unit of the Class SGD and shall be calculated by valuing the assets of the Fund in accordance with the valuation provisions as provided in paragraph 20.4 of this Singapore Prospectus. The resultant sum shall be divided by the number of Units of the Class SGD in issue or deemed to be in issue immediately prior to the relevant Dealing Day, and the resultant amount (truncated at four decimal places or such other number of decimal places or by such other truncation or rounding method as the Manager may, from time to time, determine) shall be the NAV per Unit of the Class SGD on such Dealing Day.

10.4 Numerical example of how Units are allotted

The number of Units (rounded down to 2 decimal places) you receive with an investment of SGD1,000, based on a notional issue price of SGD1.000, will be calculated as follows:

e.g	SGD1,000	-	SGD50	=	SGD950	÷	SGD1.000	=	950 Units
	Investment		Application		Investment		Issue price		No. of
	Sum		Fee		Sum				Units you
			(5%)						will receive

This is for illustration purposes only and is not an indication of the future or likely performance of the Fund or Class. The value of Units and the income from them may go down as well as up.

10.5 Confirmation of purchase

A confirmation note detailing your investment amount and the number of Units in the Class SGD allocated to you will be sent to you within 7 Business Days or 10 calendar days, whichever is longer, from the date of issue of Units for cash applications and within 14 Business Days for SRS applications (once available).

10.6 Cancellation of initial subscription by investors

Investors shall, subject to the cancellation terms and conditions attached to the application form, have the right to cancel their purchase of Units in the Fund within 6 Business Days from the date of subscription or purchase of Units (or such longer period as may be determined by the Manager or such other period as may be prescribed by the Authority) (“**Cancellation Period**”) by providing notice in writing to the Manager or its authorised agent or distributor. Full details of the provisions relating to the cancellation of Units may be found in the terms and conditions for cancellation of Units attached to the application form for the subscription of Units in the Fund.

10.7 Return of Contributions

Notwithstanding receipt of the application forms, the Manager shall retain the absolute discretion to accept or reject any application for Units in accordance with the provisions of the Deed. In the event that an application for Units is rejected by the Manager for whatever reason, the subscription monies shall be refunded (without interest) to the investor within a reasonable time in such manner as the Manager or their relevant authorized agent or distributor shall determine.

11. Regular Savings Plan (“RSP”)

Minimum Initial Investment Amount	SGD1,000* for the Class SGD
Minimum Additional Investment Amount	SGD100* for the Class SGD

* or such other amount as the Manager may decide from time to time

For RSP using cash, Unit Holders must complete an Interbank GIRO Form authorising the payment for the RSP (or such other form or method as the Manager may determine from time to time) and submit it together with the application form.

Unit Holders must complete a Direct Debit Authorisation (“**DDA**”) Form authorising the payment for the RSP and submit the DDA Form together with the application form.

For RSP using SRS monies (once available), Unit Holders must submit the application form.

Payment for the RSP will be debited from the Unit Holders' bank account or SRS Account (once available, as the case may be) on the 4th calendar day (or next Business Day if that day is not a Business Day) of each month and Units will be allotted within 3 Business Days after payment has been debited.

In the event that the debit is unsuccessful, no investment will be made for that month unless otherwise advised by the Unit Holder. After 2 consecutive unsuccessful debits, the RSP will be terminated and no notification of such termination will be sent to the relevant Unit Holder.

The Manager shall not assume any liability for any losses arising from the Unit Holders' payment for the RSP via direct debit transactions.

A Unit Holder may terminate his participation without penalty upon giving 30 days' written notice to the Manager.

The Manager reserves the right to terminate or suspend the RSP at any time in their absolute discretion by giving prior notice to the affected Unit Holders. The Manager shall not assume any liability for any losses attributable pursuant to the termination or suspension of the RSP.

12. Redemption of Units

12.1 Redemption procedure

A Unit Holder (or in the case of Joint Holders or any of the Joint Holders) may at any time during the life of the Fund make a request to the relevant distributor in writing (“**Redemption Request**”) duly signed by him or otherwise for the redemption of all Units held by him or them of the Fund. The Redemption Request must specify the number of the Units of the Fund to be redeemed.

Any resultant bank charges would be borne by the relevant investor.

12.2 Minimum holding and minimum redemption amount

Minimum Partial Redemption	100* Units for the Class SGD
Minimum Holding	1,000* Units for the Class SGD

* or such other number of Units as the Manager may decide from time to time

12.3 Dealing deadline and pricing basis

Unit Holders may redeem their Units of the Fund on any Dealing Day. Units in respect of Redemption Requests received and accepted by the appointed distribution agents on or before the Dealing Deadline on a Dealing Day will be dealt at the NAV per Unit of the relevant Class determined on that day. Redemption Requests received after the Dealing Deadline or on a day which is not a Dealing Day shall be treated as having been received on the next Dealing Day.

As Units are issued on a forward pricing basis, the redemption price of Units shall not be ascertainable at the time of submitting a Redemption Request. The redemption price per Unit of the Class SGD on each Dealing Day shall be an amount equal to the NAV per Unit of the Class SGD and shall be calculated by valuing the assets of the Fund in accordance with the valuation provisions as provided in paragraph 20.4 of this Singapore Prospectus, such amount to be truncated at four decimal places (or such other number of decimal places or by such other truncation or rounding method as the Manager may determine from time to time). The amount due to a Unit Holder on the redemption of Units shall be the redemption price per Unit multiplied by the number of Units redeemed.

The distributors may impose their own more restrictive dealing deadlines on investors earlier than the Dealing Deadline. Investors should confirm the applicable dealing deadline with the relevant distributor.

12.4 Numerical example of how the amount paid to an investor is calculated based on the sale of 1,000 Units and based on a notional redemption price of SGD1.1000

e.g.	1,000 Units	x	SGD1.1000	=	SGD1,100
	Your redemption request		redemption price		Your redemption proceeds

This is for illustration purposes only and is not an indication of the future or likely performance of the Fund or Class. The actual redemption price will fluctuate according to the NAV of the Fund or Class.

12.5 Payment of redemption proceeds

- (a) Redemption proceeds shall normally be directly credited or be paid by cheque within seven (7) Business Days of receipt and acceptance of the Redemption Request by the Manager or ten (10) days, whichever is lesser, unless the redemption of Units has been suspended in accordance with paragraph 15 below.
- (b) In the case of a Unit Holder who has purchased Units with monies from his SRS Account (once SRS applications are available), any monies payable to such Unit Holder in respect of such Units shall be paid by transferring the monies to the relevant bank for credit of the Unit Holder's SRS Account or otherwise in accordance with the provisions of any applicable law, regulations or guidelines. In the event that the SRS Account has been closed, the monies shall be paid to the investor in accordance with paragraph 12.5(a) or otherwise in accordance with any applicable law, regulations or guidelines.
- (c) The redemption proceeds will be paid in the currency of the Class of Units being redeemed.
- (d) In the case of a Unit Holder who has purchased Units with cash, any monies payable to such Unit Holder in respect of such Units will be paid by cheque sent through the post to his registered address or by telegraphic transfer to a nominated bank account.
- (e) If an investor is resident outside Singapore, the Manager shall be entitled to deduct from the total amount (which would otherwise be payable on the purchase from the investor) an amount equal to the excess of the expenses actually incurred over the amount of expenses which would have been incurred if the investor had been resident in Singapore.

13. Switching of Units

Units of the Fund may be switched into units of any other funds managed by the Manager or managed by any entity within the CIMB-Principal Group, which is approved for investment in Singapore (whether such fund is authorised or recognised). Switching may be carried out only between Units of the same currency class, unless otherwise permitted by the Manager.

Switching will be conducted based on the value of your investments in the Class. The minimum amount for a switch must be equivalent to the minimum withdrawal amount applicable to the Class or such other amount as the Manager may decide from time to time. Please note that the minimum amount for a switch must also meet the minimum initial investment amount or the minimum additional investment amount (as the case may be) applicable to the fund (or its classes) to be switched into. Further, a Unit Holder must at all times maintain at least the Minimum Holding required for the Class to stay invested in the Class. The Manager may, at its absolute discretion, allow switching into or out of the Class in relation to a particular Unit Holder or all Unit Holders generally.

To switch, simply complete a switch request form and send to your appointed agent or distributor.

Processing a switch

A switch is processed as a withdrawal from one fund and an investment into another. If we receive a valid switch request by the Dealing Deadline, the Manager will process it using the NAV per unit for that Business Day. If we receive the request after the Dealing Deadline, it will be processed using the NAV per unit for the next Business Day.

14. Obtaining Prices of Units

- 14.1** The indicative NAV of the Class SGD of the Fund will be displayed daily on the Singapore Representative's website at www.cimb-principal.com.sg. The actual prices quoted will generally be published one (1) Business Day after the relevant Dealing Day on the Singapore Representative's website.
- 14.2** Save for publications by the Manager, the Manager does not accept any responsibility for any errors on the part of the publisher concerned in the prices published in the newspapers (if any) or such other publication or for any non-publication or late publication of prices by such publisher and shall incur no liability in respect of any action taken or loss suffered by investors in reliance upon such publication.

15. Suspension of Dealing

- 15.1** The Trustee has the right to suspend sale (if applicable) and repurchase of Units under the SC Requirements or Standards of Qualifying CIS. The Manager may, subject to the SC Requirements and the Standards of Qualifying CIS, request the Trustee to suspend the sale (if applicable) and repurchase of Units under exceptional circumstances after having determined that a suspension is in the best interest of the Unit Holders, such as in the following circumstances:
- (i) the closure of a securities exchange or trading restrictions on a securities exchange;
 - (ii) it is not in the best interest of the Unit Holders to liquidate a material portion of the assets of the Fund; or
 - (iii) an emergency or other state of affairs; or
 - (iv) the declaration of a moratorium in a country where that Fund has assets; or
 - (v) for the purpose of conversion of any currency, a closure or restrictions on trading in the relevant foreign exchange market or dealings in a material portion of the assets of the Fund are restricted or suspended; or
 - (vi) the realisation of assets not being able to be effected at prices which would be realised if assets were realised in an orderly fashion over a reasonable period in a stable market or the market value or fair value of a material portion of the assets of the Fund cannot be determined; or
 - (vii) the SC has instructed either the Manager or the Trustee to suspend dealings of Units in the Fund in the interest of protecting the rights of Unit Holders.
- 15.2** If at any time the appointment of the Trustee is terminated and a new trustee has not been appointed yet, the sale (if applicable) and repurchase of the Units shall be suspended until a new trustee has been appointed. Similarly, if at any time the appointment of the Manager is terminated and a new manager has not been appointed yet, the sale (if applicable) and repurchase of the Units shall be suspended until a new manager has been appointed.
- 15.3** No suspension may exceed twenty-one (21) days unless a longer period is permitted under the SC Requirements or Standards of Qualifying CIS. All outstanding redemption and repurchases and any withdrawal notice or application for Units received while the withdrawal and issue of Units is suspended is taken to be received on the first business day after the suspension ceases.
- 15.4** Notwithstanding a Unit Holder has not requested the Manager to fully redeem or repurchase all Units held by that Unit Holder, the Manager shall have the right to fully redeem or repurchase all Units held by that Unit Holder in the event any withdrawal, switching, transfer or other transaction request if effected would result in that Unit Holder holding less than the Minimum

Holding or amount or value as the Manager shall determine from time to time and disclosed in this Singapore Prospectus.

16. Performance of the Fund and Benchmark

16.1 Past performance

Class	Total Return	Average annual compounded return			
	1 Year	3 Years	5 Years	10 Years	Since inception*
Class SGD (NAV-NAV)	-9.89%	8.49%	N/A	N/A	9.51%
Class SGD (NAV-NAV) (taking into account the Application Fees)#	-14.40%	6.60%	N/A	N/A	7.88%
Benchmark^	9.00%	9.00%	N/A	N/A	9.00%

* Inception Date: 30 September 2015

Source: Lipper. Performance numbers are computed as of 28 February 2019.

The performance of the Class SGD is computed on a single pricing basis (NAV-NAV) (taking into account the maximum Application Fee of up to 5% and Withdrawal Fee / Redemption Fee (if any)) and with dividends and distributions (if any) reinvested. Note that a lower Application Fee may be charged when subscribing for Units.

The updated performance of the Fund can be found on the Manager's website at www.cimb-principal.com.sg.

Past performance of the Fund is not necessarily indicative of the future performance of the Fund.

^Benchmark

The performance of this Fund cannot be compared directly with any specific publicly available benchmark. The performance of the Fund will be referenced against a return of 9% per annum. This is not a guaranteed return and is only a measurement of the Fund's performance. The Fund may not achieve the said return in any particular financial year but aims to achieve this growth over the medium to long term.

16.2 Expense ratio

The expense ratio of the Fund as at 30 November 2018 is 1.10%.

The expense ratio of the Fund is calculated in accordance with the Investment Management Association of Singapore's guidelines on the disclosure of expense ratios (the "IMAS Guidelines") and based on the Fund's latest audited accounts. The following expenses, as set out in the IMAS Guidelines (as may be updated from time to time), are excluded from the calculation of the expense ratio:

- brokerage and other transaction costs associated with the purchase and sales of investments (such as registrar charges and remittance fees);
- interest expense;
- foreign exchange gains and losses of the Fund (whether realised or unrealised);
- front-end or back-end loads and other costs arising on the purchase or sale of a foreign unit trust or mutual fund;
- tax deducted at source or arising on income received (including withholding tax); and

(f) dividends and other distributions paid to Unit Holders.

16.3 Turnover ratio

The turnover ratio for the Fund as at 30 November 2018 is 1.63%.

The turnover ratio is calculated based on the lesser of purchases or sales expressed as a percentage of average net asset value (NAV), i.e. average daily NAV over, as far as possible, the same period used for calculating the expense ratio.

In Malaysia, the portfolio turnover ratio ("PTR") of the Fund as at 31 March 2018 is 1.89%.

The PTR is calculated based on the following formula:

$$\frac{(\text{Total acquisition for the financial year} + \text{total disposal for the financial year}) \div 2}{\text{Average NAV of the Fund for the financial year calculated on a daily basis}}$$

17. Rebates and Soft Commissions

The Manager and the Trustee will not retain any form of rebate or soft commission from, or otherwise share in any commission with, any broker in consideration for directing dealings in the investments of the Fund unless the soft commission received is retained in the form of goods and services such as financial wire services and stock quotations system incidental to investment management of the Fund. All dealings with brokers are executed on best available terms.

18. Potential Conflicts of Interests and Related Party Transactions

The Manager (including its directors) will at all times act in the best interests of the Unit Holders and will not conduct itself in any manner that will result in a conflict of interest or potential conflict of interest. In the unlikely event that any conflict of interest arises, such conflict shall be resolved such that the Fund is not disadvantaged. In the unlikely event that CIMB-Principal faces conflicts in respect of its duties to the Fund and its duties to other CIMB-Principal Funds that it manages, CIMB-Principal is obliged to act in the best interests of all its investors and will seek to resolve any conflicts fairly and in accordance with the Deed.

The Manager shall not act as principal in the sale and purchase of any securities or investments to and from the Fund. The Manager shall not make any investment for the Fund in any securities, properties or assets in which the Manager or its officer has financial interest in or from which the Manager or its officer derives a benefit, unless with the prior approval of the Trustee. The Manager (including its directors) who holds substantial shareholdings or directorships in public companies shall refrain from any decision making relating to that particular investment of the Fund.

As at LPD, none of the directors and substantial shareholders has either direct or indirect interest in other corporations that carry on a similar business with CIMB-Principal, except for the following:

Director / Shareholder	Position	Shareholding (Direct / Indirect)	Name of corporation
CIMB Group Sdn Bhd	Shareholder	√	CIMB-Principal Islamic Asset Management Sdn Bhd CIMB-Mapletree Management Sdn Bhd

The Fund may maintain Deposits with CIMB Bank Berhad, CIMB Islamic Bank Berhad and CIMB Investment Bank Berhad. CIMB-Principal may enter into transactions with other companies within the CIMB Group and the Principal Financial Group provided that the transactions are effected at market prices and are conducted at arm's lengths.

As the Trustee for the Fund, there may be related party transactions involving or in connection with the Fund in the following events:

- (1) where the Fund invests in instrument(s) offered by the related party of the Trustee (e.g. placement of monies, structured products, etc);
- (2) where the Fund is being distributed by the related party of the Trustee;
- (3) where the assets of the Fund are being custodised by the related party of the Trustee both as sub-custodian and/or global custodian of the Fund (i.e. Trustee's delegate); and
- (4) where the Fund obtains financing as permitted under the SC Guidelines, from the related party of the Trustee.

The Trustee has in place policies and procedures to deal with any conflict of interest situation. The Trustee will not make improper use of its position as the owner of the Fund's assets to gain, directly or indirectly, any advantage or cause detriment to the interests of Unit Holders. Any related party transaction is to be made on terms which are best available to the Fund and which are not less favourable to the Fund than an arms-length transaction between independent parties.

Subject to the above and any local regulations, the Trustee and/or its related group of companies may deal with each other, the Fund or any Unit Holder or enter into any contract or transaction with each other, the Fund or any Unit Holder or retain for its own benefit any profits or benefits derived from any such contract or transaction or act in the same or similar capacity in relation to any other scheme.

Subject to any legal requirement, the Manager or any related corporation of the Manager, or any officers or directors of any of them, may invest in the Fund. The directors of CIMB-Principal will receive no payments from the Fund other than distributions that they may receive as a result of investment in the Fund. No fees other than the ones set out in this Prospectus have been paid to any promoter of the Fund, or the Trustee (either to become a Trustee or for other services in connection with the Fund), or CIMB-Principal for any purpose.

19. Reports

The financial year-end of the Fund is 30 November each year.

The Manager shall, upon request from a Unit Holder, send a copy of the annual report of the Manager within two (2) months after the request is received and upon payment of a reasonable sum as may be determined by the Manager. The Manager shall send by post, to each Unit Holder without charge, a copy of the annual report and interim report of the Fund within two (2) months of the end of the respective financial period. Upon request from Unit Holders, additional copies of the annual report and interim report of the Fund shall be sent to Unit Holders within two (2) months after the request is received and upon payment of such sum as shall be determined by the Manager.

20. Other Material Information

20.1 Distributions

Depending on the distribution policy of the respective Class, distribution (if any) will be made at the end of each distribution period to the Class(es) according to its distribution policy. Each Unit of the Class will receive the same distribution for a distribution period regardless of when those Units were purchased. The distribution amount a Unit Holder will receive is calculated by multiplying the total number of Units held by such Unit Holder in the Class with the distribution

amount in cent per Unit. On the distribution date, the NAV per Unit will adjust accordingly. Currently, Class SGD is not expected to pay any distribution. Distributions, if any, are at the Manager's discretion and will vary from period to period depending on the availability of realised income for distribution and performance of the Fund.

All distributions (if any) will be automatically reinvested into additional Units in the Class at the NAV per Unit of the Class on the distribution date (the number of Units will be rounded down to two (2) decimal places), unless written instructions to the contrary are communicated by the Unit Holder to the Manager, in which the Unit Holder should have first furnished the Manager with details of his bank account in the currency denomination of that Class, that all distribution payment shall be paid into (the cost and expense will be borne by the Unit Holder). No Application Fee is payable for the reinvestment.

If Units are issued as a result of the reinvestment of a distribution or other circumstance after the Unit Holder has withdrawn his investment from the Class, those additional Units will then be withdrawn and the proceeds will be paid to the Unit Holder.

Investor should note that distribution payments, if any, will be made in the respective currency for that Class.
